

Paid Marketing Plan of Action

Website: <https://www.salescalator.com/>

Business Niche: Training and development

Business Goal: Brand Awareness, Website Traffic and Leads

Tier 1 Marketing Strategy: Get your message in front of the right eyes

Objective: Brand Awareness and Website traffic

Stage one of the marketing funnel is all about getting your brand discovered by the right people. This is the beginning of a complete marketing strategy that turns new visitors into paying customers over multiple touchpoints, sessions and devices.

Paid Channels that we use here are:

- Google Search ads
- LinkedIn text/ Spotlight Ads
- Youtube Ads

1. Google Search Ads

I will use keywords based targeting to show informative text ads on particular searches on google to particular demographics and audiences.

About Search Ad Campaign:

Every time a search is initiated, Google digs into the pool of ads advertisers and chooses a set of winners to appear in the ad space on its search results page. The “winners” are chosen based on a combination of factors, including the quality and relevance of their keywords and ad campaigns, as well as the size of their keyword bids.

Ad Funnel Structure for Search ad campaigns:

- I will find the service specific keyword to promote the tech sales Program.
- I will add one expanded text ad and one responsive search ad copy on each ad group.
- I will add the relevant ad extensions.
- I will do the testing at the adgroup and ads level.

- I will apply the bid adjustments.
- Here the Audience targeting will be in market and affinity audiences

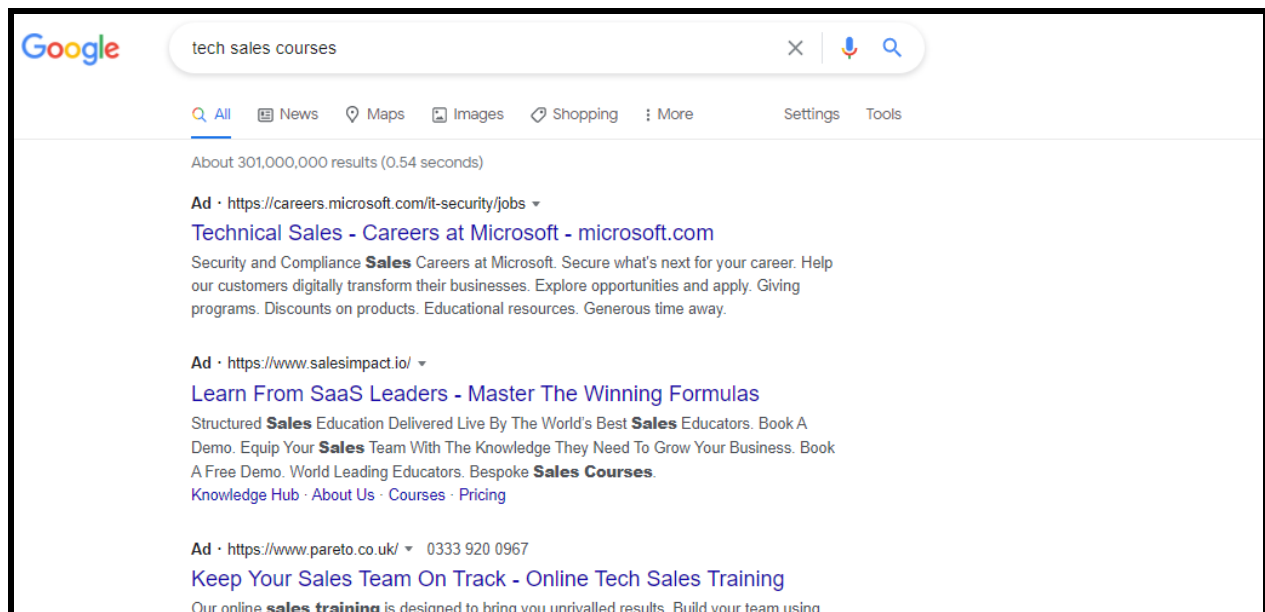

Benefits of Search Ad Campaign:

- Better ad positioning
- More targeted search results
- Brand Awareness
- Website Traffic
- Leads

Campaign Set up Requirement:

- Dedicated landing pages, with detailed information about products, CTA, offers.
- Daily Budget.
- Location targeting (as provided)
- Ad Schedule

Sample Search Ads:

2. LinkedIn text/ Spotlight Ads:

Like other social advertising platforms, LinkedIn advertising offers a variety of ad types and formats to play with. Across all their offerings, LinkedIn advertising supports brand awareness, website visits, engagement, video views, lead generation, site conversions, and job applications. Here we will test the text and spotlights ads to drive traffic on website:

LinkedIn spotlight ads are a type of dynamic ad personalized to each LinkedIn user that leads to an advertiser's website or landing page. Desktop or mobile friendly. LinkedIn Text Ads are simple ads served on the right-hand side or top of the LinkedIn desktop feed.

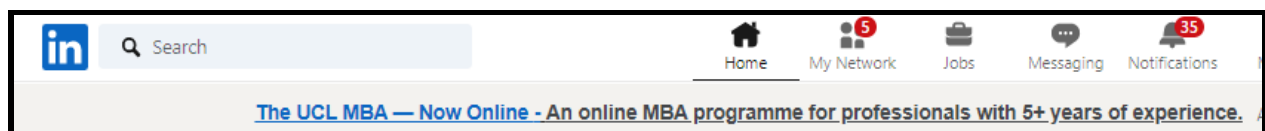

Main Elements of LinkedIn ad campaign;

- Objective
- Budget
- Targeting

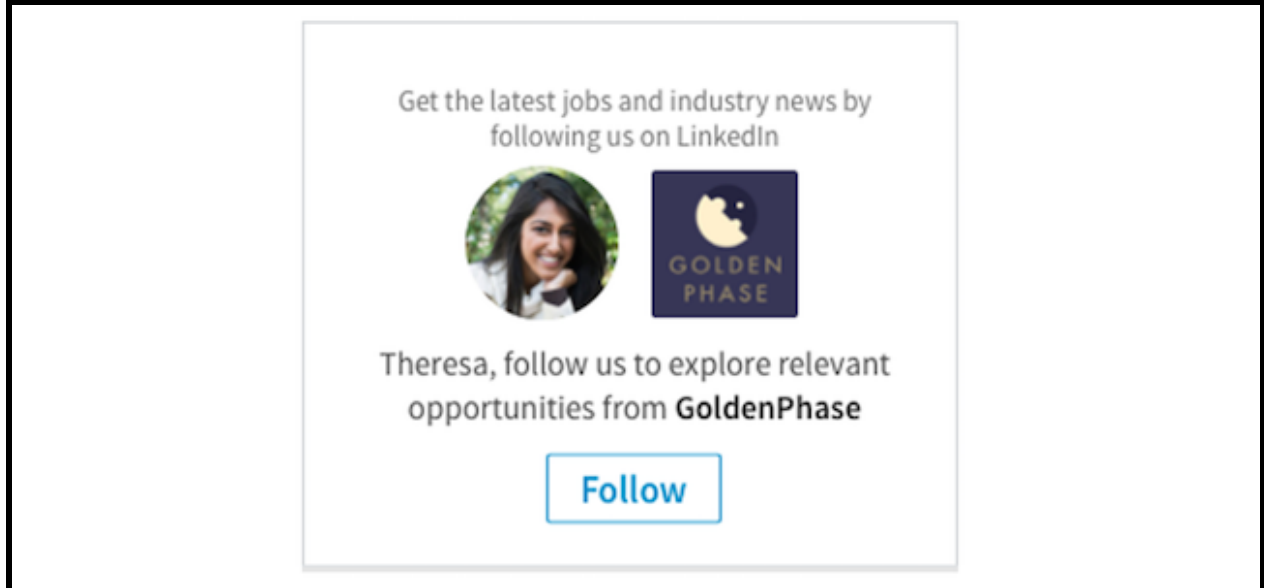

Here we can select an audience from a wide range of targeting facets. Here is a full list of criteria to choose from:

- **Company:** Company Connections, Company Followers, Company Industry, Company Name, Company Size
 - **Demographics:** Age and Gender
 - **Education:** Degrees, Fields of Study, and Member Schools
 - **Job Experience:** Job function, Job Seniority, Job title, Member Skills, and Years of Experience
 - **Interests:** Groups and Member Interests
- Ad Copy and Its Elements

Sample of Text Ads:

Sample of SpotLight Ads:

3. YouTube Ads:

- YouTube is one of the most powerful platforms for businesses trying to capture customers' attention.
- Video campaigns allow you to reach and engage with your targeted audience on YouTube and through Google video partners.
- Here we'll apply the demographic and audience based targeting to the video ads to reach the audience which is relevant to our business.
- Here we will run the skippable instream video ads.

In the Tier 1 of the marketing we will implement the data tracking codes on websites like Global site tag, LinkedIn Insight tag and Facebook Pixel code. We will create the audiences on the basis of valuable parameters on the same day and they will start populating as users visit the website.

Tier 2 Marketing Strategy: Make yourself the most compelling option

Objective: Target higher-intent audiences, turn awareness into purchase intent

In the second stage of the funnel we will target the existing leads who're aware of our brand/message.

Paid Channels that we use here are:

- **Facebook Lead Generation Ads**

Facebook lead ads are essentially promoted forms. These forms allow marketers to capture details from customers while offering opportunities to connect, such as newsletter subscriptions, demo requests, or contest registration.

- **LinkedIn Inmail Ads**

Communicate to your prospects without having to worry about character limits. You can also add a Lead Gen Form to your message to collect leads directly on LinkedIn.

Messages are delivered in an uncluttered environment so that your brand stands out.

Main Elements of Lead Generation ad campaign:

- Objective
- Budget
- Targeting

Bouncers: People who leave your site within seconds (without viewing a second page).

Scrollers: Visitors who spend a good amount of time on our landing page before leaving.

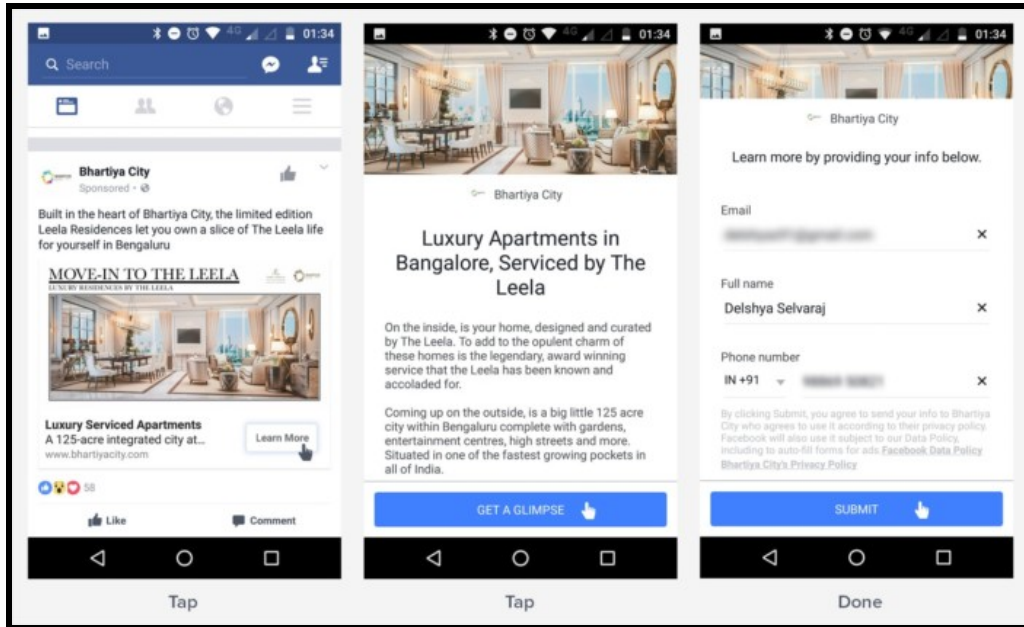

Browsers: Users who visit multiple pages, spending minutes on your site.

Clickers: People click one of your CTAs but don't make the final conversion.

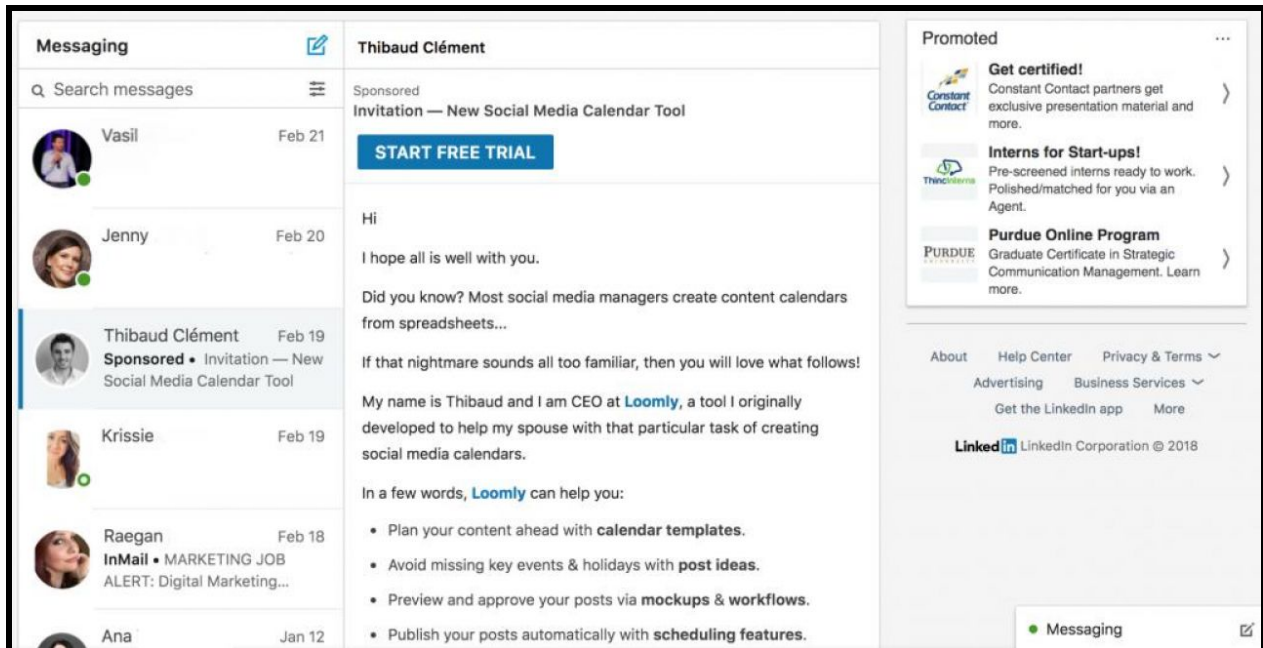

Quitters: Users who start the conversion process (eg: filling out your form) but quit before converting.

- Ad copy
- Lead Form

Sample of Facebook Lead Generation Ads:

Sample of LinkedIn Inmail Ads

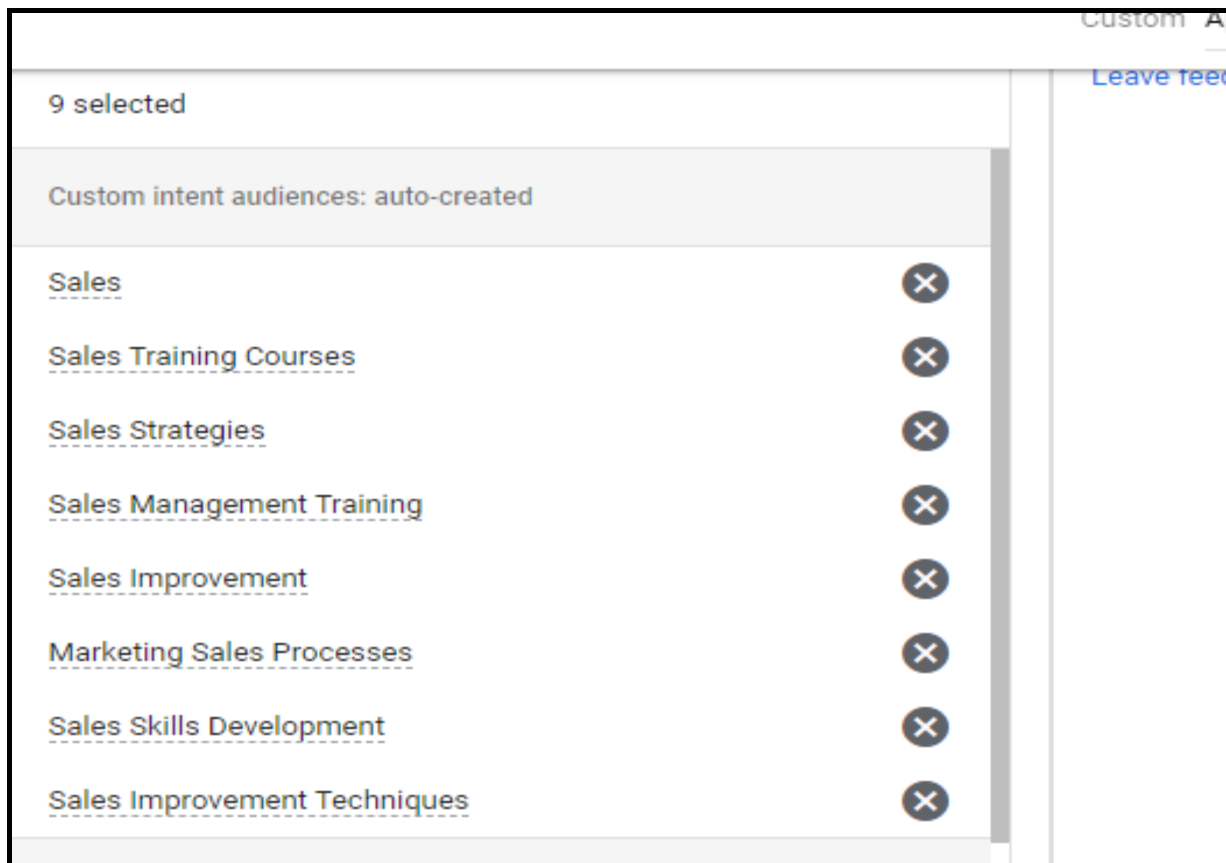

Tier 3 Marketing Strategy: Turn leads into profitable actions

Objective: Convert leads, minimise conversion barriers, turn consideration into action

- The leads data we have captured through the Tier 1 and 2 marketing, we will outreach those users with email marketing to close the deals.
- Email marketing is the most important channel for reaching existing leads at the latter stages of the marketing funnel and guiding them from one stage to another to close the deal.
- With a healthy number of email leads every month, you're going to need a customer relationship management (CRM) system and the right set of email marketing tools to manage these leads as they progress along the consumer journey.
